

Event Invitation

**BTL cordially invites you to attend the first Forum on
blockchain applications**

**Monday February 22nd 2016, 12:00AM
Level 39, Canary Wharf**

BTL Blockchain Auditing

BTL Auditing provides transparency and trust to regulators, consumers and businesses by allowing them to independently view and verify data integrity, removing the risk of fraud or data loss.

BTL Biometric Authentication

BTL Biometric Authentication protects private keys with biometric access tokens. Transactions are created and signed on the hardware device with a fingerprint and the signed transactions are broadcast to the network.

BTL B2B Payment Network

BTL's B2B Payment Network connects financial institutions together with a real time messaging and clearing platform operating on a blockchain.

BTL Smart Contracts

BTL's smart contracts enable automation of complex business processes enabling cost savings and new business opportunities.

When: Monday February 22nd 2016, 12:00 AM
Where: Level 39, Canary Wharf, London, E14 5AB
